REVALUATION PROCEDURE AND GUIDELINES

Please note the revaluation procedure outlined on page 19 of the college handbook:

- i. The student may be given advantage only when the difference of marks between the first valuation and the second one is within the range of 5-10%. In such a case, the student is eligible for a refund of 50% of the revaluation fee.
- ii. If the difference is less than 5%, the student concerned will not be given any advantage.
- iii. If the difference is more than 10%, the answer-script will be sent for a second revaluation. The average of the two revaluation marks will be considered as the final marks of the candidate.

Additionally, ensure you understand the following before applying for revaluation:

- A. Revaluation papers are assessed rigorously. Applying does not guarantee a passing/better result.
- B. If your revaluation score is higher than the original, the higher marks will be updated. If the score is lower (which is possible), the original marks will be retained.
- C. Do not approach the Controller of Examinations (COE) with parents or others to dispute lower marks. Familiarize yourself with the procedures.
